### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of the invention of Group I, claims 1-13, in the reply filed on April 11, 2011 is acknowledged.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 8-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 4, 8 and 11 recite the limitation "the diameter of an inner peripheral portion of the member" in lines 3-4 of each of the claims. There is insufficient antecedent basis for this limitation in the claims.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Simon (US Patent 4,435,972).

Simon discloses a method of forming a member 11 having an inside-diameter portion with a smaller diameter (fig. 1), the method comprising forming a large-diameter recess in a material (bore in section 13a in fig. 2), machining the recess (col. 2, lines 49-61) and swaging the material from an outside by inserting a mandrel having a diameter equal to a diameter of an inner peripheral portion of an aimed member (col. 2, lines 62-68 and figs. 3 and 4).

***Allowable Subject Matter***

6. Claims 2 and 3 are allowed.
7. Claims 4-13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
8. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach a method of forming a member having an undercut, the method comprising forming a recess having a diameter larger than a diameter of a diameter of an inner peripheral portion of the member, forming an undercut at an inner periphery of the recess, swaging from an outside the material into which a mandrel had been inserted so that an inside diameter of the material is decreased to an outside diameter of the mandrel with the undercut left, these in combination with the rest of the limitations in the claims.

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
